Naturally beautiful flooring

Dear Business Partner

The HARO brand stands for ongoing innovation and renewal as well as the commitment to our traditions and partners – and has done so for many years. As a family business it is our mission to develop contemporary products, services and systems for you and your customers.

For us, 'moving with the times' means being close to our partners and end consumers, and understanding their needs, mindsets and priorities. This knowledge allows us to respond to changes and grow with them. Our goal is to align progress with our values of sustainability, responsibility and commitment to quality. After all, it is our values that drive and inspire our work: with high quality standards and a strong passion for the material and workmanship. We take our responsibility towards people and nature seriously, which is why we make floors that are naturally beautiful and a delight for you and your customers.

Be inspired by our innovations and the classics from our range on the following pages.

We hope you enjoy choosing the floor of your dreams!

Sincerely

Peter Hamberger

Dr Peter M. Hamberger

Dr Peter M. Hamberger in conversation with his father Peter Hamberger

**"With great passion and responsibility,
we make high-quality floors of natural
beauty that you can simply enjoy."**

Products that keep what we promise

With HARO, you can be certain that we use our resources efficiently to develop and manufacture non-toxic products in the spirit of nature and environmental protection – naturally with great passion for the sustainable raw material wood.

That is why it is still a priority for the fifth generation of our family-run company to manufacture at our headquarters in Rosenheim. Wherever it says HARO, there is quality Made in Germany!

New and popular at HARO

- 1 Plank 1-Strip 180 4000 Series with silk surface**
The popular board now feels even softer thanks to a completely new surface finish.
[From page 22](#)
- 2 Plank 1-Strip 180 4000 Series with a particularly authentic surface texture in retro look**
The retro brushed surface gives it a particularly natural look and an expressive feel. As easy to clean as always.
[From page 26](#)
- 3 DISANO WaveAqua**
A modern, robust design floor with an excellent price-performance ratio. Available in highly authentic wood styles.
[From page 116](#)

Made to fit – Flooring accessories and care products

We not only manufacture floors, but also offer suitable accessories that fit perfectly when it comes to their look and their technical design: skirtings, transition mouldings, insulation underlays and much more. For cleaning and care there is the specially formulated, ecologically safe 'clean & green' care series – this ensures that HARO Floors stay beautiful for many years.

Sales support that really helps

Experience HARO Floors at home with just one click!

The HARO Room Visualiser enables you to select high-quality HARO Parquet Flooring on your tablet or smartphone in the comfort of your own home. With just one click, you can install the floor virtually in your own living room.

- 1 Take a photo of your home
- 2 Select a floor
- 3 Experience the floor in your home

Now even easier to use

We have improved the user-friendliness so that selecting your new floor is even faster and easier. With the HARO Room Visualiser, you can make a pre-selection from the comfort of your own home.

You can order a hand sample of the selected flooring at www.haro.com and search for the nearest HARO specialist retailer by entering your postal code.

They will be happy to give you comprehensive advice right up to the final decision, and you can be certain that you have chosen the right floor. You can, of course, also start the selection process for your new floor directly at your HARO retailer.

It couldn't be easier!

You can find it at www.haro.com or in the HARO digital! app

Contact partners who are there for you

Always here for you – in and for your region!

As a family business, we place great value on quality, responsibility and reliability. Our customers are our top priority, and for you as our partner, we always offer short and direct communication lines. Our team is always available to offer professional and competent advice. Get in touch!

HARO PARQUET

ONE OF A KIND

QUALITY

HARO has been producing parquet flooring since 1950. This extensive experience and expertise is embodied in every single parquet board and ensures consistently high quality – both in production and in use. For this reason, we also offer a guarantee of up to 30 years and thus the certainty of having chosen the right floor.

BEAUTY

Thanks to our wealth of experience working with wood, we know how to process and refine it in a way that highlights and emphasises the beauty of this natural material. This is complemented by innovative brushing processes and natural-looking finishes, which enhance the natural beauty of our parquet floors.

EASY CARE

HARO PARQUET is straightforward and easy to clean and care for. To maintain the timeless beauty of our parquet, dry cleaning with a vacuum cleaner is usually sufficient. If required, it can be wiped with a damp cloth in conjunction with our clean & green care products, which are specially adapted to our parquet flooring. Quick and easy.

HARO PARQUET with three-layer construction

For floating or glue-down installation

TECHNICAL CONSTRUCTION

3-layer construction for floating installation, full glue-down installation or installation with self-adhesive ComforTec system.

- ❶ Approx. 3,5 mm thick top layer of choice precious wood
(with HARO PARQUET 3500 approx. 2,5 mm)
- ❷ Solid spruce fingerstrips as middle layer
(HDF E1 coreboard for the 3500 Series)
- ❸ Softwood backing board

Four different board formats give you almost unlimited design possibilities..

Plank 1-Strip 140:

Compact Plank 1-Strip format with an aesthetically extremely pleasing width-to-length ratio.

Floors marked with **Spa** are suitable for installation in the bathroom. ***

Dimensions: 140 x 1500 mm

Plank 1-Strip 180:

The parquet classic in board format.

Floors marked with **Spa** are suitable for installation in the bathroom. ***

Dimensions: 180 x 2200 mm respectively 173 x 2200 mm*

Plank 1-Strip Plaza 240:

Extra wide for an especially spacious look.

Dimensions: 240 x 2200 mm respectively 220 x 2200 mm**

Longstrip:

Vibrant, modern look provided by three parallel strips.

Dimensions: 180 x 2200 mm

* Thermo wood, Smoked Oak, African Oak, Ash Fancy

** Smoked Oak

*** Please note the special installation instructions.

HARO PARQUET with two-layer construction

For professional glue-down installation

TECHNICAL CONSTRUCTION

2-layer construction for glue-down installation

❶ Approx. 3,5 mm thick top layer of choice precious wood

❷ Solid spruce fingerstrips

Classical or contemporary, timeless or trendy – 4 different formats for all tastes.

Strip Plank Maxim:

The large strips in original Plank 1-Strip format. Now on spruce fingerstrips.

Floors marked with **Spa** are suitable for installation in the bathroom.***

Dimensions: 180 x 2200 mm respectively 173 x 2200 mm*

Strip Duna:

Aesthetic Plank 1-Strip look. Suitable for every room size.

Floors marked with **Spa** are suitable for installation in the bathroom.***

Dimensions: 140 x 1500 mm

Strip Prestige:

Plank 1-Strip format. Also suitable for herringbone pattern installation.

Floors marked with **Spa** are suitable for installation in the bathroom.***

Dimensions: 120 x 1000 mm

Strip Allegro:

Timeless, classic design. Ideal for a wide variety of installation patterns.

Dimensions: 70 x 490 mm

* Smoked Oak

*** Please note the special installation instructions.

Grades

Longstrip / Strip Allegro

The oak top layers we select for our HARO parquets are available in a wide variety of grades from subtle to vibrant. We provide the right HARO Oak Parquet for every taste. As with all pleasant things in life, it is your personal taste that counts. The descriptions of the grades are only an approximate value. A decision can best be made by viewing original boards.

EXQUISIT (only for Longstrip floors): Choice top-layer strips of uniform texture and colour | Look: Calm, representative visual impact ○

TREND: Calm wood grain with small amount of knots | Look: Natural, classic, timeless △

NATURELE: Wood grain with natural colour differences and a natural amount of knots | Look: Vibrant □

TERRA (only with Strip Allegro): Natural wood grain with a few small knots | Look: Vibrant, Rustique □

Note: Exotic woods may included other mineral features typical with the species.

○, △, □ graded in acc. with EN 13489, 4.4; all others graded in acc. with EN 13489, B

Grades

Plank 1-Strip 140 / Plank 1-Strip 180 / Plank 1-Strip Plaza 240 /
Strip Prestige / Strip Duna / Strip Plank Maxim

EXKLUSIV: Choice top-layer strips of uniform texture and colour | Look: Calm, representative visual impact

MARKANT: Wood grain with natural amount of knots | Look: Natural, classic, timeless

SAUVAGE: Natural to vibrant wood texture, larger amounts of knots, cracks, filled areas and wormholes are possible | Look: Trendy, rustic

UNIVERSAL: Combination of our grades, including heartwood | Look: Vibrant

ALABAMA: Lively wood texture with authentic amount of knots and a number of black puttied cracks | Look: unique, rustic, authentic

The surface treatment

¹ **permaDur** HIGH FINISH

The permaDur finish is a high-quality varnished surface with an elegant, silky matt shine. Its surface impresses with exceptional durability and easy maintenance.

CHARACTERISTICS

- Silky-matt shine
- Particularly hard-wearing thanks to the protective layer on the precious-wood surface
- Exceptionally easy to maintain
- Lowest susceptibility to dirt
- The look of a varnished surface
- Haptically perceptible surface protection
- Suitable for commercial applications
- All floors with permaDur high finish have been awarded the „Blue Angel“ environmental label.

² **naturaDur** MATT SURFACE FINISH

The revolutionary premium surface finish naturaDur impresses with its beauty and the soft feel of a natural oil surface. At the same time, the finish is a durable special varnish that protects the parquet floor against signs of wear and tear and makes maintenance and cleaning even easier.

CHARACTERISTICS

- Natural matt surface
- Highly resistant to wear & tear and scratches, and thus very hard-wearing.
- Especially easy to maintain
- The pleasantly soft feel and look of a natural oil surface
- Suitable for commercial applications
- 100% free from solvents
- All floors with naturaDur surface finish have been awarded the „Blue Angel“ environmental label.

³ **naturaLin^{plus}** NATURAL OIL FINISH

The breathing natural oil surface naturaLin plus perfectly sets the scene for the natural character of a parquet floor. The oil penetrates the wood, protects the parquet and gives it a unique matt look and a natural feel. The surface is particularly easy to clean.

CHARACTERISTICS

- Especially matt surface
- Natural and authentic look
- Easy to maintain
- The natural feel of real wood
- Suitable for commercial applications
- All floors with naturaLin plus natural oil surface have been awarded the "Blue Angel" environmental label.

The surface textures

SMOOTH

- Velvety-matt surface
- A pleasantly smooth feel
- Timeless beauty

BRUSHED

- Authentic feel and very natural look of the surface
- Trendy
- By treating the surface with special brushes, the soft material between the annual rings is brushed down.

ALPINE BRUSHED

- The look and feel are even more distinctive and natural than with textured surfaces
- Rustic and distinctive surface texture
- Exclusive surface for Plaza 240 Plank 1-Strip

RETRO BRUSHED

- Authentic texture that reflects the natural growth of the wood and emphasises the knots.
- In combination with the matt natural oil finish, the floor looks all natural yet very modern.

Plank 1-Strip 180 4000 Series with silk surface finish

Our new surface “Silk”

In addition to the familiar easy-to-clean surface finishes that highlight the authentic character of the wood, we now offer our customers a novelty: the “silk” surface finish combines the properties of the previous surface finishes with a softness you can see and feel. This trend can be found on furniture and kitchen fronts and now also on parquet floors.

As Germany's leading parquet manufacturer, it goes without saying that we had this development tested by an independent institute – and we have every reason to be proud of the result!

The representative survey within the target group of buyers showed that 78% of the women questioned and almost 70% of the men attributed the following characteristics to the new smooth “silk” surface:

- Particularly pleasant feel.
- Feels especially good when walking barefoot.
- The surface looks and feels soft, even and smooth despite clearly visible and tangible surface textures.
- The overall appearance of the floor is resilient, firm, stable and of very high quality.

A sample will convince you of the advantages and positive characteristics of the new “silk” surface.

¹ See note on exotic woods ⁵ Seasonal variations in grading possible.

The fine art of parquet craftsmanship

parkettmanufaktur by HARO is the premium segment of the HARO brand. We manufacture individual, exclusive parquet that is finished by hand, perhaps making it the most beautiful parquet you can buy.

The Chevron parquet variant from parkettmanufaktur by HARO combines traditional elegance and creative modernity. With enchanting lines in herringbone pattern, this parquet gives your rooms an exceptional charm.

- The premium segment of the HARO brand.
- The most exclusive parquet from Germany's leading parquet manufacturer
- Embodies lasting and unique values: freedom, spaciousness, durability, longevity and timelessness, tradition and authenticity as well as uniqueness and craftsmanship.
- Customisation options with traditional woodworking techniques – from hand-scraped and hand-brushed to frame-sawn surfaces and a wormhole look..

PARQUET WITH THREE-LAYER CONSTRUCTION

Plank 1-Strip XL – The biggest for spacious interior designs.

- Dimensions: 245 x 3030 mm (also available in the lengths 1800, 2000 and 2200 mm and 305 x 4030 mm)
- Top layer thickness: approx. 5 mm

Plank 1-Strip and Plank 1-Strip Plaza

- Dimensions: 2200 mm x 180 mm and for Plank 1-Strip Plaza 2200 x 240 mm
Oak Nubia, Vintage Oak and all colour-refined surfaces are available in the format 2200 mm x 173 mm
- Top layer thickness: approx. 3,5 mm
- Easy to install with Top Connect – also on underfloor heating and cooling.

Carré

- Dimensions: 2200 mm x 180 mm
- Top layer thickness: approx. 4,2 mm

PARQUET WITH TWO-LAYER CONSTRUCTION

Strip Prestige – for installation in classic herringbone pattern

- Dimensions: 120 x 1000 mm
- Top layer thickness: approx. 3,5 mm

Strip Chevron 4V - for installation of chevron flooring

- Dimensions: 140 x 740 mm
- Top layer thickness: approx. 3,6 mm

PARQUET TILE

- The most exclusive form of a parquet floor.
- Traditional design with modern features, such as bevelled edges and oleovera natural oil surface finishes.
- 4 different designs in up to 6 different wood types

The products shown in the following range overview are stock items.

For the wide variety of individualisation options, please see pages 74 - 79.

Examples of floors from the customisation programme are shown on pages 80 to 83.

DISANO – The Design Floor for Healthy Living

100 % free from PVC and plasticisers

CONCEPT

In recent years, a new type of flooring has become established, which is commonly called Design Flooring. It usually refers to floors that are made of plastic. Our DISANO by HARO design floors differ from most other plastic floors, as they do not contain PVC or plasticisers, which makes them particularly dimensionally stable when there are temperature fluctuations. In contrast to conventional design floors, DISANO by HARO has been awarded the Blue Angel, the certificate for products that are harmless to health and also certified with the Eco Label.

SPECIAL FEATURES

All DISANO by HARO Design Floors are entirely free from plasticisers, PVC and phthalates. Our understanding of healthy living is incompatible with the use of these substances. A DISANO by HARO Design Floor therefore guarantees a healthy home – and this includes the bathroom, kitchen and children's room.

PROPERTIES

DISANO by HARO has many positive characteristics: it is soft, warm to the touch, easy to clean, durable and quiet. The excellent workmanship and high quality of the materials guarantee that our floors will stay as beautiful as on the very first day – even after years of use.

DISANO by HARO

PROPERTIES

SOFT, WARM TO THE TOUCH, EASY TO CLEAN, DURABLE AND QUIET

DISANO by HARO has many positive properties: it is not only free from harmful substances – it is also particularly pleasant in everyday use. Thanks to the high quality of the materials and the excellent workmanship, our floors are just as beautiful as on day one, even after years of use. In the long

run, this saves a vast amount of money and effort. This approach is modern and sustainable: the resources used for producing new floors and disposing of obsolete building materials can be reduced to a minimum.

WARM TO THE TOUCH

All the materials used to manufacture DISANO flooring have been carefully selected to ensure a healthy living environment. Structured in multiple layers they make DISANO flooring so warm and pleasant to the touch.

SUITABLE FOR USE IN DAMP ROOMS

All DISANO Floors are approved for use in damp rooms: DISANO Saphir and Project are waterproof. DISANO LifeAqua, SmartAqua, ClassicAqua and WaveAqua are equipped with moisture protection.

EASY TO MAINTAIN

Cleaning and maintaining DISANO by HARO is child's play: simply sweep or vacuum the surface and, if necessary, wipe the floor with a damp cloth using the eco-friendly clean & green care series.

DURABLE

DISANO by HARO impresses with an exceptional durability, even when exposed to intensive wear and tear, for instance in entry areas or in commercial applications.

SOFT

The SilentSense surface makes DISANO Design Floors soft and pleasant to the touch, creating a cosy and relaxing atmosphere.

DISANO by HARO

THE DIFFERENCE

Superior in every way

Unlike conventional PVC floors that contain plasticisers, DISANO Design Floors by HARO are highly convincing: they are not only better when it comes to creating a healthy living environment, but also in terms of technical advantages and usage properties. Problems such as discolouration, embrittlement and cold flow, which always occur in conventional vinyl floors over time, are something that will never happen with our floors. In addition, DISANO by HARO Design Floors impress with their dimensionally stable structure. At its centre is the rigid core board (not included in DISANO Project), which makes our floors insensitive to temperature fluctuations and particularly easy to install – even if the subfloor is slightly uneven.

	Standard vinyl floor	DISANO by HARO
COLOUR CHANGES The colours of vinyl floors can change significantly under the influence of UV light. DISANO by HARO retains its colour throughout its entire lifetime.		
EMBRITTLING The plasticisers in vinyl floors lose their effectiveness over time. This can cause the floors to become stiff and brittle. DISANO by HARO remains permanently soft and elastic.		
DIMENSIONAL STABILITY While vinyl floors react to heat by bending, DISANO by HARO remains amazingly even for years. The reason is our Rigid Core Board.		
DISPOSAL Due to the substances in vinyl floors, they must not be disposed of in household waste. Residues or trimmings of DISANO by HARO, on the other hand, can simply be disposed of in the bin for private residual waste.		
COLD FLOW Cold flow is the phenomenon in which permanent dents in vinyl flooring are caused, for example, by furniture and chair legs. In contrast, DISANO by HARO is pressure-resistant and these dents never occur.		

DISANO by HARO

DISANO Saphir

The hard-wearing design floor for all requirements. Water-proof.

- Maximum protection: extremely resilient and durable
- 100 % waterproof
- Particularly suitable for renovations thanks to its low profile

- ❶ Soft SilentSense surface
- ❷ Waterproof full-plastic coreboard (Rigid Core Board)

4,5 x 235 x 1282 mm

4,5 x 313 x 631 mm

DISANO Project

The design floor for professional installation. Water-proof.

- A healthy alternative to PVC flooring
- Especially suitable for renovations thanks to low profile
- Continuous installation right into the bathroom
- 100 % waterproof

- ❶ Soft SilentSense surface
- ❷ Stabilising ElastoTec pressure distribution layer

Simply better

The most beautiful wood styles

CONCEPT

HARO has been producing parquet since 1950. No one knows better what a beautiful, trendy wooden floor should look like. This expertise makes HARO unique. This is why the surfaces of HARO Laminate Floors are especially natural and beautiful. HARO Laminate Floors are virtually maintenance-free. Dry cleaning with a broom or vacuum cleaner is sufficient for regular cleaning. Occasional damp cleaning with clean & green active, the ecological cleaning agent especially designed for the Laminate Floors by HARO, is completely sufficient.

THE WORLD'S QUIETEST LAMINATE FLOOR

With the development of the world's quietest laminate floor, HARO achieved what nobody thought possible. Reduction of indoor sound by 60% compared to conventional laminate floors.

A unique gain in comfort.

THE EASIEST INSTALLATION

With the Top Connect connection system, the floor can be installed effortlessly and quickly – without any tools.

The quality of the installed floor is just as high as the speed of this installation method.

HARO Laminate Floor

Laminate Floor TRITTY 200 Aqua

The premium laminate floor for maximum wear and tear.

- Maximum protection and safety - even in damp rooms
- Extremely resilient and durable
- Premium design – 100% authentic styles with a unique surface experience

- 1 Specially impregnated overlay (durable protective layer)
- 2 Decorative laminate, specially impregnated
- 3 The dimensionally stable AquaReject coreboard is also approved for use in damp rooms in accordance with Wo-l (DIN 18534), such as domestic bathrooms or kitchens, due to the highest possible swelling resistance.
- 4 Moisture-repellent balancing laminate
- 5 Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

Laminate Floor TRITTY 100

The design laminate floor for high demands.

- Exceptional variety of formats and styles with over 90 % authentic styles
- Resilient and durable
- Moisture protection AquaTec

- 1 Specially impregnated overlay (durable protective layer)
- 2 Decorative laminate, specially impregnated
- 3 Dimensionally stable, special moisture control HDF E1 coreboard aquaResist
- 4 Moisture-repellent balancing laminate
- 5 Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

Laminate Floor TRITTY 90

The tough and renovation-friendly laminate floor.

- Especially easy to install
- Particularly suitable for renovations thanks to its low profile
- High durability

- 1 Specially impregnated overlay (durable protective layer)
- 2 Decorative laminate, specially impregnated
- 3 Dimensionally stable, special moisture control HDF E1 coreboard aquaResist
- 4 Moisture-repellent balancing laminate
- 5 Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

Laminate Floor Special Edition NKL 31

The entry-level range in HARO brand quality.

- HARO brand quality Made in Germany
- The entry-level range of HARO's Laminate Floor world
- Modern styles with pleasant surfaces

- 1 Specially impregnated overlay (durable protective layer)
- 2 Decorative laminate, specially impregnated
- 3 Dimensionally stable, special moisture control HDF E1 coreboard aquaResist
- 4 Moisture-repellent balancing laminate
- 5 Optionally available with integrated Silent Pro luxury insulation layer (suitable for use with underfloor heating)

Moisture protection

aquaTec – Double moisture protection

Their well-balanced multilayer construction ensures that HARO Laminate Floors remain stable at all times. And the special aquaTec system gives you the guarantee that they will always stay in good shape.

This is achieved by connecting the aquaResist special moisture control HDF coreboard with a specially impregnated protective coat (overlay and style). TRITTY 200 Aqua uses the special aquaReject coreboard, which allows installation even in damp rooms.

Laminate floor edge swelling with the effects of water

TRITTY 200 AQUA – also for damp areas

Due to the moisture-control aquaReject coreboard, the floor is optimally protected against moisture and also approved for installation in damp rooms (Wo-l in accordance with DIN 18534), such as domestic bathrooms or kitchens. Due to its special impregnation and the highest degree of resistance against swelling, TRITTY 200 Aqua can withstand standing tap water for up to 24 hours. Thanks to the high utilisation class 23/33, the floor is also ideally suitable for areas subject to particularly heavy wear, such as the hall or the kitchen.

- It is not suitable for installation in wet areas such as shower cabins or saunas.
- Please note: The subfloor moisture must comply with the standard specifications for installation.
- The installation instructions must always be followed carefully.

Sound insulation

HARO TRITTY Silent CT – the quietest laminate floor

60% quieter than standard floating laminate floors! Forget loud stomping, annoying footfall sound, heel clacking and other noises. This is the result of HARO's ComforTec innovation. Self-adhesive strips on the underside of the boards make glue-down installation with the subfloor possible. This leads to the pleasant acoustic of a full glue-down floor and a pleasant walking comfort. This sound insulation was tested and certified by the state-certified testing centre of the Entwicklungs- und Prüflabor Holztechnologie GmbH in Dresden. But this innovative laminate floor can do more than sound good. HARO TRITTY Silent CT is durable and easy to maintain, offers perfect wood reproductions created by the parquet specialists, and is incredibly easy to install with Top Connect®.

Insulation underlays

Silent Pro – for added soundproofing, resilience and comfort

We recommend an insulation underlay for all hard subfloors. They help to increase flexibility, absorb indoor and footfall sound, and level minor irregularities of the subfloor. Due to the high elasticity of the mineral fillers, the Silent Pro insulation creates a pleasant “forest floor effect”, reducing strain on joints and spine. Silent Pro is also suitable for installation over underfloor heating – and best of all: with a Silent Pro insulation layer on the back of the board, you not only save one work step, but also ensure optimal acoustic properties..

Pleasant for you when the sound level in the room is perceptibly minimised.

It will especially please your neighbours when your steps do not sound like thunder.

* Maximum individual values achieved in accordance with the EPLF Impact Hammer test (compared to reference floor)

** According to DIN 140-8

HARO Cork Floor

HARO CORKETT
Design Arteo XL 4V
OAK PORTLAND DARK GREY
textured

www.blauer-engel.de/uz176

**Fold Down
locking system**

Cork floors create an especially pleasant atmosphere in the home. With its healthy, heat-insulating, elastic and sound-insulating properties, cork is regarded as the all-rounder among floor coverings. In addition, cork is one of the most sustainable resources for the production of modern, natural and eco-friendly floors - after all, not a single tree has to be felled to produce cork.

HARO combines all these advantages with the classy surface texture of high-quality parquet floors. The result is a modern reinterpretation of the traditional raw material cork.

TECHNICAL CONSTRUCTION

3-layer construction with HDF E1 coreboard

❶ permaDur finish.

❷ Cork top layer: approx. 3 mm.
 Cork top layer Sirio: approx. 2,5 mm.
 Cork top layer Arteo XL 4V: approx. 2 mm.
 Total thickness: approx. 11 mm.
 Total thickness Sirio: approx. 10,5 mm.
 Total thickness Arteo XL 4V: approx. 10 mm.

❸ HDF E1 coreboard (approx. 6,8 mm).

❹ Cork footfall sound insulation (approx. 1,2 mm).

Cork Arteo XL 4V:

Exceptional wood styles combined with the advantages of the pure natural product cork.

Always trendy and stylish, with genuine bevelled edges on four sides.

Board dimensions: 195 x 1235 mm.

Cork classic:

Simply pleasant, with classic cork look.

Board dimensions: 298 x 907 mm.

Dimensions: 11,0 x 298 x 907 mm (Sirio 10,5 mm)
Top layer thickness: approx. 3,0 mm (Sirio approx. 2,5 mm)

Original Accessories

SAFE - MATCHING - TESTED

SYSTEM-TESTED

At HARO you will not only find high-quality parquet, laminate, design and cork floors - naturally, we also have a large selection of matching accessories to ensure that your feel-good floor is perfect right from the start and remains beautiful for many years to come. The accessories not only match, but are also system-tested. All original accessories, all cleaning and care products are perfectly adapted to the floors, not only technically, but also when it comes to colour.

INSULATION UNDERLAYS

REQUIREMENTS FOR TODAY'S INSULATION UNDERLAYS

In the system, insulation underlays improve the comfort of your floor.

The right insulation underlay

- ensures quiet in the room and absorbs room and footfall sound.
- improves the elasticity of the floor, reduces impact on the body's joints and increases living comfort.
- smoothes out minor irregularities of the floor, thus improving product safety.
- protects against penetrating moisture from the subfloor.

In order to help you with choosing the right insulation underlay and to evaluate the measured values, here is a brief overview of the most important values to be taken into account.

Footfall and room sound reduction:

The footfall and room sound can be significantly reduced by selecting the floor together with a high-quality insulation underlay. Wooden floors develop a particularly pleasant and duller sound compared to other hard floor coverings. Insulation underlays with a high mass weight (density kg/m²) significantly reduce the generation of sound and sound propagation in the room (sound in the room).

Example of a reduction that meets the highest standards with the Silent Pro insulation layer

Room and footfall sounds are not directly comparable, as different test procedures/conditions are used. Even seemingly objective room and footfall sound levels are often not comparable due to different test methods. Therefore, you should keep in mind the respective test method when comparing the values and consider room and footfall sound separately.

* Maximum individual values achieved in accordance with the EPLF Impact Hammer test (compared to reference floor)

** According to DIN 140-8

Thermal resistance:

The thermal resistance characterises the ratio of the thickness to the thermal conductivity of a component. The higher the thermal resistance, the better the thermal insulation property of the component or a layer. So if you have an underfloor heating, you must make absolutely sure that the thermal resistance of the insulation underlay is as low as possible. This allows the underfloor heating to work efficiently and thus lowers the heating costs.

Thermal resistance	Thermal conductivity
0,004-0,01 m ² K/W	high
0,01-0,03 m ² K/W	medium
0,03-0,110 m ² K/W	low

Moisture protection:

"Water vapour diffusion-equivalent air layer thickness" sd value:

The sd value is a value measured in metres (m) and determines the vapour permeability of a building material. The higher the value, the less moisture diffuses (creeps) through the material. To protect against possible residual moisture on newly introduced mineral substrates and all mineral subfloors with underfloor heating, laying out a vapour barrier is necessary. All Haro insulation underlays with an sd value fulfil the standard of a vapour barrier. Here you can choose between an insulation underlay with integrated vapour barrier, such as Silent Pro DS and Silent Energy DS, or the Haro Vapo Stop vapour barrier before laying the insulation underlay.

sd value	Moisture protection
< 0,5 m	low
0,5 m - 1500 m	medium (moisture protection)
> 1500 m	high (vapour barrier)

You will also find detailed information in our technical data sheets or receive information by telephone through our application technology service.

COMFORT: Premium insulation underlay for the highest demands for indoor and footfall sound

ÖKO: Insulation underlay based on natural raw materials

BASIC: Standard insulation underlay with an excellent price/performance ratio

Comfort Line insulation underlays

Premium insulation underlay for the highest demands for indoor and footfall sound insulation. The high elasticity reduces impact on body joints and the spine.

Silent Double Fix

Specially developed for glue-down installation on both sides

High-quality insulation layer with decoupling function, consisting of mineral fillers. Thanks to double-sided glue-down installation beneath parquet, Silent Double Fix achieves the best possible impact sound values (+6 db compared to direct glue-down installation on screed without Silent Double Fix). Also suitable for floating installation and use with underfloor heating.

Thermal resistance: 0.010 m² K/W
Thickness: approx. 2 mm
Roll: 8,0 x 1,0 m
Pallet: 320 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 486	1 roll = 8 m ²	40 rolls = 320 m ²	€/m ² 10,79	

Comfort Line insulation underlays

Silent Energy DS

Ideal for use over underfloor heating

High-quality sound insulation underlay with integrated vapour barrier based on polyolefins filled with natural stone dust. Perfect for use over underfloor heating thanks to its excellent thermal conductivity. Helps save energy.

Thermal resistance: 0.004 m² K/W
SD > 200 m
Thickness: approx. 1.5 mm
Roll: 7,4 x 0,75 m
Pallet: 299,7 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
408 292	1 roll = 5.55 m ²	54 rolls = 299,7 m ²	€/m ² 8,29	

Silent Pro DS

Exceptional walking comfort with sound insulation and moisture protection

The premium product is of the same make as Silent Pro, but equipped with an additional vapour barrier. Suitable for use over underfloor heating.

Thermal resistance: 0.010 m² K/W
SD > 100 m
Thickness: approx. 3 mm
Roll: 5,5 x 1 m
Pallet: 220 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 490	1 roll = 5.5 m ²	40 rolls = 220 m ²	€/m ² 8,29	

Silent Pro

Excellent sound insulation and walking comfort

Silent Pro based on PUR with mineral fillers ensures the best possible sound conditions. Both the sound in the room and the footfall sound in bordering rooms are considerably reduced. The forest floor effect caused by the high elasticity reduces impact on body joints and spine. Suitable for use over underfloor heating.

Thermal resistance: 0.010 m² K/W
Thickness: approx. 3 mm
Roll: 5,5 x 1,0 m
Pallet: 220 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 489	1 roll = 5.5 m ²	40 rolls = 220 m ²	€/m ² 6,63	

Silent Grip

Specially developed for vinyl and design floor coverings with click system

High-quality sound insulation underlay based on natural mineral fillers with a slip-resistant grip surface, especially for the floating installation of vinyl and design floor coverings on a full-plastic basis with a click system. Also suitable for installation over underfloor heating.

Thermal resistance: 0.010 m² K/W
Compression strength: 44 t
Thickness: approx. 1,4 mm
Roll: 10 x 1,0 m
Pallet: 400 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 491	1 roll = 10 m ²	40 rolls = 320 m ²	€/m ² 6,63	

Aluminium adhesive tape

For joining sheets of Silent Pro DS, Silent Eco DS, Visco Pro DS, Roll-out cork DS and Duofol footfall sound insulation underlays.

Width: 50 mm
Length: 50.00 m

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
405 851	1 roll	36 rolls	€/roll 5,38	

ECO LINE insulation underlays

Insulation underlay based on natural raw materials.

Silent Eco DS

Eco acoustic mat with moisture protection

High-quality acoustic mat with excellent footfall and room sound properties and integrated vapour barrier; material based on vegetable oils with mineral fillers. The permanently flexible insulation underlay offers added walking comfort and reduces impact on body joints and spine. Suitable for use over underfloor heating.

Thermal resistance: 0.010 m² K/W
SD > 100 m
Thickness: 2 mm
Roll: 8,5 x 1,0 m
Pallet: 340 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 488	1 roll = 8,5 m ²	40 rolls = 340 m ²	€/m ² 5,79	

Silent Eco

Eco acoustic mat

High-quality acoustic mat with excellent footfall and room sound properties; material based on vegetable oils with mineral fillers. The permanently flexible insulation underlay offers added walking comfort and reduces impact on body joints and spine. Suitable for use over underfloor heating.

Thermal resistance: 0.010 m² K/W
Thickness: approx. 2 mm
Roll: 8,5 x 1,0 m
Pallet: 340 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 487	1 roll = 8,5 m ²	40 rolls = 340 m ²	€/m ² 4,96	

Roll-out cork DS

Natural cork

The natural cork insulation underlay with integrated vapour barrier offers an excellent price-performance ratio and can be used universally; suitable both for use over underfloor heating and in computer rooms.

Thermal resistance: 0,041 m² K/W
Thickness: approx. 2 mm
Roll: (30 m²) 30x1 m
Pallet: 360 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 475	1 roll = 30 m ²	12 rolls = 360 m ²	€/m ² 4,96	

Roll-out cork underlay

Natural cork

This natural insulation underlay made of cork offers an excellent price-performance ratio and is suitable for universal applications; it is even underfloor heating compatible and suitable for use in computer rooms. Very good footfall sound and heat insulation.

Thickness: approx. 2 mm
Thermal resistance: 0.041 m² K/W
Roll: (10 m²) 10 x 1 m, (30 m²) 30 x 1 m
Pallet: (10 m²) 350 m², (30 m²) 360 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
403 640	1 roll = 10 m ²	35 rolls = 350 m ²	€/m ² 4,04	
402 847	1 roll = 30 m ²	12 rolls = 360 m ²	€/m ² 3,71	

Woodfibre insulation board

Excellent heat insulation

Levelling, footfall-sound and heat insulation underlay made of FSC® (CO21181) -certified natural wood fibre. Meets high ecological requirements. Due to its thermal resistance and excellent insulation properties, this underlay is not recommended for use over underfloor heating. Helps save energy.

Thermal resistance: 0.071 m² K/W
Thickness: approx. 5 mm
Dimensions: 0.79 x 0.59 m (board)
Pallet: 24 pack = 168 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
406 354	1 pack = 7 m ²	24 pack = 168 m ²	€/m ² 3,29	

BASIC LINE insulation underlays

Standard insulation underlay with an excellent price-performance ratio improves walking comfort and reduces footfall sound.

Visco Pro DS

Light insulation underlay for reduced sound and moisture protection

The light insulation underlay for reduced sound, with integrated vapour barrier.

With its high viscoelasticity, this 2 mm thick levelling underlay can adapt optimally to the subfloor and smooth out irregularities almost completely. Despite its light weight (230 g/m²), Visco Pro has excellent indoor and footfall sound reduction properties and is also perfect for use over underfloor heating.

Thermal resistance: 0.041 m² K/W
SD > 100 m
Thickness: approx. 2 mm
Roll: 15,2 x 0,99 m
Pallet: 24 rolls = 360 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
407 721	1 roll = 15 m²	24 rolls = 360 m²	€/m² 4,96	

Visco Pro

Light insulation underlay for reduced sound

The light insulation underlay for reduced sound.

With its high viscoelasticity, this 2 mm thick levelling underlay can adapt optimally to the subfloor and smooth out irregularities almost completely. Despite its light weight (200 g/m²), Visco Pro has excellent indoor and footfall sound reduction properties and is also perfect for use over underfloor heating.

Thermal resistance: 0.039 m² K/W
Thickness: approx. 2 mm
Roll: 15,2 x 0,99 m
Pallet: 24 rolls = 360 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
407 720	1 roll = 15 m²	24 rolls = 360 m²	€/m² 4,04	

Duofol PE footfall sound insulation

Combination of 2 mm standard PE foam and 0.2 mm PE construction film. The overlap strip of the PE film along the side provides added protection against moisture penetration. Due to possible electrostatic charging, this insulation underlay should not be installed under laminate flooring in rooms in which computer systems are used. Only suitable for use over underfloor heating if installed under laminate floor.

1.00 m width + 6 cm overlapping adhesive strip

Thermal resistance: 0.040 m² K/W
SD > 100 m
Thickness: ca. 2,2 mm
Roll: 28,8 x 1,06 m
Pallet: 12 rolls = 345.6 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
402 053	1 roll = 28,8 m²	12 rolls = 345.6 m²	€/m² 2,96	

EPS Easy Aquastop (fanfold board)

Very easy to install fanfold board made of expanded polystyrene foam; with integrated vapour barrier and aluminium tape.

Thermal resistance: 0.040 m² K/W
SD > 100 m
Thickness: approx. 1,6 mm
Dimensions: 15 x 1,2 m
Pallet: 21 Pack = 378 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
407 719	1 pack = 18 m²	21 pack = 378 m²	€/m² 2,46	

BASIC LINE insulation underlays

NEW

Premium PE-Foam DS

Non-crosslinked premium PE foam, with crosslinked appearance thanks to new extrusion technology, including an integrated vapour barrier. Due to possible electrostatic charge, do not use under laminate flooring in rooms where computers are used. Only suitable for use over underfloor heating if installed under laminate floor.

Thermal resistance: 0.050 m² K/W
Thickness: approx. 2 mm
Roll: 30 x 1 m
Pallet: 12 rolls = 360 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 492	1 roll = 30 m ²	12 rolls = 360 m ²	€/m ² 3,79	

Quality PE Foam

High-quality, non-crosslinked PE foam for application areas with increased traffic and load. Due to possible electrostatic charging, this insulation underlay should not be installed under laminate flooring in rooms in which computer systems are used. Only suitable for use over underfloor heating if installed under laminate floor.

Thermal resistance: 0.040 m² K/W
Thickness: approx. 2 mm
Roll: 30 x 1 m
Pallet: 12 rolls = 360 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 493	1 roll = 30 m ²	12 rolls = 360 m ²	€/m ² 1,54	

Standard PE Foam

Cost-effective, non-crosslinked PE foam which is suitable for low to medium traffic and load. Due to possible electrostatic charging, this insulation underlay should not be installed under laminate flooring in rooms in which computer systems are used. Only suitable for use over underfloor heating if installed under laminate floor.

Thermal resistance: 0.040 m² K/W
Thickness: approx. 2 mm
Roll: 30 x 1 m
Pallet: 12 rolls = 360 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 494	1 roll = 30 m ²	12 rolls = 360 m ²	€/m ² 0,67	

HARO Vapo Stop vapour barrier

Provides added moisture protection and should be installed under all insulation underlays that have no integrated vapour barrier. Penetration of residual moisture from the subfloor is prevented and the floor covering is protected against possible moisture damage. Suitable for use over underfloor heating.

SD > 90 m
Thickness: approx. 0,2 mm
Roll: 13 x 2 m
Pallet: 83 rolls = 2158 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
406 208	1 roll = 26 m ²	20 rolls = 520 m ²	€/roll 21,67	

Floor protection

For the protection of your floor, for example during renovation work and when moving house

HARO Protective fleece

Multifunctional anti-slip protection and protective fleece. The HARO Protective fleece is equipped with a non-slip underside and a waterproof foil. The ideal solution to protect floors and stairs. For use on dry surfaces subject to low to moderate mechanical strain.

Thickness: approx. 1.3 mm
Roll: 50 x 1 m
Pallet: 24 rolls = 1200 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
410 633	1 roll = 50 m ²	12 rolls = 600 m ²	€/m ² 2,96	

Laying Tools

From tapping block to pull tool: installation tools from the HARO range meet professional requirements. To be able to guarantee optimum product harmonization, we also develop our own tools in close cooperation with leading manufacturers.

All-round tapping block

Tapping block made of extremely durable recycled PE plastic

Length: 28.00 cm

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
405 712	1 pc.	4 pc.	€/pc. 11,63	

Tapping block LC Plus

Made of extremely durable recycled PE plastic. For floating installation of HARO floorings with Lock Connect plus installation system

Length: 30.00 cm

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
406 586	1 pc.	10 pc.	€/pc. 7,42	

Professional tapping block

Made of extremely durable recycled PE plastic. With its slightly bevelled tapping edge, it offers an ideal striking surface.

Length: 30.00 cm

Dispersion Adhesive

for the HARO Design Floor DISANO Project, homogeneous PVC and CV floorings
 Solvent-free one-side dispersion adhesive with very low emission levels (EC1 classified).
 Suitable for use over underfloor heating.

Coverage: approx. 300 g/m²
 Pallet: 462 kg / 33 pcs.

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
410 566	1 pc. = 14 kg	5 pc. = 70 kg	€/kg 8,25	

Special spreader L for 3-layer Parquet and selected Design Floors

Especially suitable for applying HARO Flexible Glue when installing 3-layer Parquet, Design Floors DISANO ClassicAqua

5.5 mm deep notches

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
400 464	1 pc.	10 pc.	€/pc. 3,29	

Special spreader D for 2-layer parquet and selected Design Floors

Especially suitable for applying HARO Flexible Glue when installing 2-layer Parquet, Design Floor SmartAqua and Saphir.

4 mm deep notches.

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
400 529	1 pc.	10 pc.	€/pc. 3,29	

Special spreader for Disano Project

Especially suitable for spreading HARO dispersion adhesive when installing HARO Disano Project Design Floor.

1.5 mm deep notches

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
409 682	1 pc.	10 pc.	€/pc. 3,29	

HARO mounting adhesive

- Very good initial adhesion
- Permanently elastic, odourless curing
- Solvent free, silicone free, isocyanate free, free from plasticising ingredients
- Versatile, e.g. for HARO Interior Wall and Stairs, skirtings and mouldings

Contents: 290 ml
 Coverage: 1 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 160	1 pc.	20 pc.	€/pc. 13,25	

Glue

PVAC-D3 White Glue

For waterproof gluing of wood joints (tongue/groove)

Contents: 550.00 g
Coverage: 25.00 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
403 125	1 pc.	12 pc.	€/pc. 6,63	

Joint Filler

Couiking cork - solvent free

Universal, high-grade caulking and filling agent for heat and sound insulation. Consists of purely natural granulated cork and a solvent-free, elastic binding agent. The material is a single-component product; it is viscoplastic and stable.

Contents: 500 ml

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
406 088	1 pc.	20 pc.	€/pc. 10,79	

Joint Filler

Single-component, rigid and permanently elastic, acrylic-based sealing compound. Silicone-free, solvent-free, non-odorous and easy to sand. Can be finished. Also suitable for use as an adhesive due to its high adhesive strength. Frost-sensitive.

Contents: 310 ml

Accessories for assembly and skirtings

Clips for stick-on skirtings

Plastic skirting clips for the simple and invisible mounting of stick-on skirtings. The pack also includes the screws and plugs for fastening the clips to the wall.

Now including drilling template!

1 pack = 30 clips, screws, plugs
and drilling template
– enough for 15 metres

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
407 198	1 pack	10 pack	€/Pack 10,25	

HARO Nail clip

For easy and invisible installation of skirtings in all forms and materials.

With the HARO Nail clip, it is possible to move the skirting without any problems at a later time.

1 pack = 30 clips and plugs
Coverage: approx. 9 - 15 metres

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
410 634	1 pack	10 pack	€/Pack 10,25	

HARO mounting adhesive

- Very good initial adhesion
- Permanently elastic, odourless curing
- Solvent free, silicone free, isocyanate free, free from plasticising ingredients
- Versatile, e.g. for HARO Interior Wall and Stairs, skirtings and mouldings

Contents: 290 ml
Coverage: 1 m²

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
411 160	1 pc.	20 pc.	€/pc. 13,25	

Seal lip rail

Rail system with integrated sealing lip suitable for all stick-on skirtings 19x58 mm. The HARO seal lip rail protects the expansion joint from moisture and the strip from moisture from below.

Length: 240 cm

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
410 635	1 pc.	20 pc.	€/lm 5,13	

LED Skirting

A successful combination of fixing rail and LED strip. Each HARO skirting (with recess for clips) can be attached up to a height of 90 mm. This makes the system incredibly flexible.

LED strips

White light, self-adhesive
incl. transformer and dimmer with remote control
12 V/ 4.8 W/metre

Length: 500 cm

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
409 777	1 pc.	-	€/lm 9,96	

LED mounting rail Click-Fix silver

Mounting rail with channel for glueing on LED strips up to a height of 10mm.
Including matt and transparent PET channel cover.

Length: 240 cm

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
409 778	1 pc.	-	€/lm 15,79	

LED header, white

Header for LED fixing rail

Contents: 2 pc./pack

ID N°	PU	Min. quant. f. discount	€ excl. VAT	
410 378	1 pack	-	€/Pack 3,33	

Plastic corners

Plastic corner pieces in wood style for stick on skirting 19 x 58 mm

The corners make installation easier, as the mitre cut is no longer necessary. The headers and connectors also allow the skirtings to be covered at seams. Content: 2 pieces per pack; with headers, a left and a right one.

Mouldings

Your floor can't be laid without crossover points and continuous everywhere throughout your house or apartment. Crossover points are especially unavoidable when you lay your parquet floating. Moulding systems provide the help you require here by bridging the necessary separating joints in the floor covering and providing stylish accents.

With the following overview, we would like to offer our advice to help you find the suitable moulding solution for your floor. If you have special requirements, we will gladly help you on request to determine the optimal floor moulding.

Explanation of the three most common types of mouldings, using the example of the Allround floor mouldings

Transition moulding (or expansion joint moulding)

- for coverings that are equally high or have a variance of up to ± 5 mm

End moulding

- for perfect endings, boundaries of all coverings against higher, adjacent thresholds, tiles, patio doors and windows or other elevations

Reducer moulding

- for coverings to adjacent, lower surfaces such as carpet, design floor, tiles etc.

Two-piece mouldings each consist of a base moulding, which is fixed in the floor (screwed or glued), and the top moulding, which is inserted from above onto the base moulding and also either screwed or clipped on to it, depending on the system.

All metal floor mouldings with holes are delivered incl. screws and dowels. ECO floor mouldings with Phillips screws, all other floor mouldings with Torx screws.

Overview

clean & green®

Quick, easy and natural maintenance of all floors

1

The revolution in natural floor care

clean & green, the floor care line for quick, easy, effective and ecological cleaning and maintenance. Our decades of experience with the different floor types have gone into the development of the clean & green products.

2

www.blauer-engel.de/uz12a

Parquet cleaner natural

for all types of natural floors

Intensive cleaner active

for Laminate Floor and DISANO design floor and for deep cleaning of Parquet

Floor Care aqua shield

for prefinished parquet floors and coated surfaces

Parquet care product aqua oil

Initial treatment and subsequent maintenance of oiled surfaces

Only two products to clean and maintain all surfaces.

The beauty treatment for prefinished and coated surfaces

The beauty treatment for oiled surfaces.

For regular cleaning and care of all parquet surfaces, cork floors, linoleum floors and open-pored stone floors of terracotta, slate, granite or marble.

For regular cleaning of laminate floors, DISANO design floors, synthetic/PVC, rubber, glazed and unglazed tiles, porcelain stoneware tiles and for deep cleaning of parquet and other natural floors.

For refurbishing pre-finished parquet floors and coated floor coverings, such as laminate floor. Apply with the "Wischwiesel" flat mop after the basic cleaning. With clean & green aqua shield the floor shows its full beauty again.

Clean & Green aqua oil has the tremendous advantage that you need no polishing machine, which used to be required before. Cleaning and maintaining oiled parquet floors is now easier, quicker and, above all, much cheaper with the new aqua oil.

Additionally, the durability is improved and the floor is protected from moisture penetrating from above.

Linseed oil has been one of the best wood protection and maintenance products for centuries. clean & green aqua oil is based on linseed oil and gives you an environmentally friendly, yet effective way to optimally care for your floor. Every oiled natural floor will now show off its beauty for a long time.

1) EU eco label for clean & green natural, active und aqua oil

2) Blue angel for aqua shield.

3) Changes in the gloss level may occur.

General Terms and Conditions of Business of the Hamberger Flooring GmbH & Co. KG, D-83003 Rosenheim

1. General

All our legal relationships, including consultancy services performed within their scope, that are not the subject-matter of a separate consultancy agreement, shall be based on our "General Terms and Conditions of Business." In addition, all and any deliveries of wood effected within the Federal Republic of Germany shall be subject to the procedures used according to customary trade practice in the wood-processing industry, and in particular to the provisions of what is known as the "Tegemseer Gebraeuche" in the latest version applicable at each respective time, including all its annexes and its appendix – to the extent that they are not contradictory to these General Terms and Conditions of Business. The wording of said provisions is understood to be known. Otherwise the text shall be sent upon request. Our General Terms and Conditions of Business shall be applicable to all and any legal transactions with contractors within the meaning of §14 of the German Civil Code [BGB]. We shall not recognise any terms or conditions of purchase on the part of any party contracting with us, or any agreements in deviation of our General Terms and Conditions of Business, unless their applicability is acknowledged in our order confirmation.

2. Offers – Conclusion of Contract – Prices

Our offers shall be subject to confirmation. A contract shall not be deemed to be concluded until the order is confirmed or executed by us. Our offers shall be subject to prior sale.

The specifications, drawings and illustrations, as well as descriptions relating to delivery and performance contained in our brochures, catalogues, price lists, or in the offer or documents pertaining to the offer, are approximate values in accordance with customary trade practice, unless in the order confirmation they have expressly been referred to as binding. We reserve the right to make changes in the manufacturing process and shape of the delivery item, to the extent that such changes are acceptable for the purchaser.

If an offer is made on a sample basis, the colour and texture of the sample shall not be deemed warranted qualities. Samples provided will only represent an average condition of the goods. Specifications as to dryness, weight, etc. will be given according to the best of our knowledge, but shall be without engagement.

Our prices are quoted ex works, free lorry or wagon, plus VAT. If flooring or panelling for walls or ceilings is installed by ourselves, our quotations shall comprise delivery free construction site. Prices quoted in our offers shall be binding on us for 30 calendar days.

In the event of an essential change of certain cost factors – wages, packing material, or freight – occurring between the conclusion of a transaction and delivery, the agreed price may be adjusted, within reasonable limits, according to the influence of the relevant cost factors, but by no more than a maximum of 5%. In the event of price increases, the purchaser shall have the right to declare his repudiation of the contract.

3. Credit-worthiness

When accepting orders, we shall assume that the contractor is solvent. If it turns out that this condition was not fulfilled, or noticeably is no longer fulfilled, we shall be entitled to revoke credit terms granted, claim cash in advance of further deliveries, demand payment or securities against return of all bills of exchange and cheques accepted by way of payment, or rescind the contract. This shall also apply if the contractor is in delay regarding the payment of earlier invoices, in the event of a returned debit note, protest of a cheque or bill of exchange, or if a substantial deterioration of his financial circumstances becomes known.

4. Delivery and Passing of Risk – Shipment and Packing

Delivery times shall not be deemed fixed dates unless expressly referred to as such.

Part shipments shall be admissible within reasonable limits and shall have to be accepted. In the event of delays in delivery or performance due to force majeure or as a result of occurrences making performance substantially difficult or impossible – these include particularly operational disturbances, strike, lockout, natural phenomena, government acts and disturbance of traffic routes –, we shall be released from the obligation to deliver or perform for the duration of such impediment plus a reasonable preparation time. The same shall apply in the event that supplies delivered to us are incorrect or do not arrive in due time, unless we are responsible for this. If so requested, our contractor shall have to declare whether he repudiates the contract as a result of the delay, or whether he insists on delivery. Any claims for damages, even on the grounds of delays going beyond the limits outlined above, shall be ruled out unless we are liable due to intent or gross negligence or on the grounds of injury to life, body, or health. This shall not involve any change in the burden of proof to the disadvantage of our contractors. If the delivery of orders placed on an on-call basis is not requested within one month after expiry of the agreed deadline, we shall be entitled to optionally either insist on immediate acceptance or immediately rescind the contract without fixing another deadline. The same shall apply in the case of orders to be performed on call with no particular deadline agreed for demanding delivery, if more than 4 months have elapsed without any request for delivery since the order was confirmed. Contractors shall not be entitled to assert any rights before granting us a reasonable final deadline of at least eight workdays

5. Warranty

Wood is a natural product. Its natural properties, variations and features are therefore to be taken into account in any case. In particular, the purchaser shall have to consider the biological, physical, and chemical properties when buying, processing and using wood. The natural range of variation in terms of colour,

texture, and other characteristics within one species of wood is typical of wood as a natural product and shall not represent any cause for complaint or liability claims. If need be, our contractor shall have to seek appropriate technical advice.

Only our product description shall be deemed agreed for the condition of goods. Public statements or extolling in advertisements shall not represent any additional indication as to the condition of goods under the contract.

Any complaints referring to immediately noticeable defects in terms of quality, inadequate installation, delivery of the wrong goods, and quantity variance shall have to be notified in writing without delay, at the latest within 8 days after receipt of the goods or performance of the work. Complaints shall have to be stated at any rate before processing or using the goods. Once the delivery or performance has been accepted, any subsequent objections shall be ruled out. If goods have been made available for collection and neither the contractor nor any other person authorised by the same appears to collect them, such goods shall be deemed accepted.

Defects that are not obvious, or defects occurring during or after processing or installation, shall have to be notified in writing without delay, at the latest within 10 workdays after being discovered. The burden of proof for the date of finding such defect shall be on the contractor.

In the case of bilateral mercantile transactions between merchants, §§ 377 & 378 of the German Commercial Code [HGB] shall remain unaffected. The purchaser shall have to inform us of any circumstances bringing warranty into operation in favour of a consumer, as soon as possible after learning about the case.

In the event of justified objections, we shall deliver any quantities missing and otherwise provide free remedy, grant a price reduction, replace or take back goods, whichever we may choose. To the extent that our products are also installed by us (e.g. flooring, panelling of ceilings and walls), the contractor shall assume the responsibility for adequate and safe intermediate storage of the products delivered.

If remedying or substitute delivery fails or becomes impossible, our contractor shall be entitled to cancel the contract – except if involving the performance of building work – or to reduce the purchase price, whichever he may choose to satisfy his claims.

We shall assume liability for the absence of warranted qualities only to the extent that such warranty shall serve the particular purpose of covering the contractor against the consequential damage resulting from the absence of such qualities. The mere reference to DIN or EN standards shall not make their contents a warranted quality.

Claims based on defects of quality shall become statute-barred in 12 months. This shall not apply in the event that the law prescribes longer periods of limitation pursuant to § 438, para. 1, item 2 (Buildings and Items for Buildings), § 479, para. 1 (Claim under a Right of Recourse), and § 634 a, para. 1, item 2 (Constructional Defects) of the German Civil Code [BGB].

Reciprocal claims for damages, no matter what the legal basis may be, in particular on the grounds of neglect of contractual obligations and damage claims in tort, shall be ruled out unless otherwise provided in the following. This shall also apply in particular to consequential damage and claims for compensation of expenses.

In the event that essential obligations under the contract should be neglected, liability shall be limited to such damage as is typical of the contract and is predicable. This shall not apply in cases where liability is mandatory, e.g. under the product liability statute, in cases of intent or gross negligence, or on the grounds of injury to life, body, or health.

If delivery or performance is impossible and we are responsible for this, the contractor's claim for damages shall be limited to a maximum of 10% of the value of that part of the delivery which cannot be put to appropriate use as a result of such impossibility. The right to cancel the contract shall remain unaffected.

6. Performance of Installation

If we undertake to perform installation work (flooring, panelling of ceilings or walls), we shall assume that the substrate will permit immediate installation of the goods delivered and that site measurements specified to us are correct.

Any costs resulting from defects in the substrate shall be at the expense of the principal. Special treatment of the substrate and measurement of rooms shall only be performed by us if such services are part of the contract and expressly mentioned in our order confirmation. All and any extra services shall be separately charged by us.

Additional costs due to incorrect specification of site measurements or of dates on the part of the principal shall be at his expense. On completion of special measures as well as on completion of the installation work, the principal shall have to confirm to the installer in charge that the work performed and the measurements of the finished surface laid are correct.

The provisions of the German Standard Building Contract Terms [VOB], Part B and Part C, shall be applicable unless the contractor is a consumer pursuant to § 13 of the German Civil Code [BGB].

Site measurements shall be calculated including thresholds and recesses according to dimensions in unfinished state. Mouldings and expansion gaps shall not be deducted. Areas that are to be left uninstalled, such as the bases of pillars, chimneys, etc., with a surface up to 0.5 m², shall not be deducted either.

7. Reservation of Title

All and any goods delivered (goods under reservation) shall remain our property until the purchase price and all other claims due to us as a result of the business relationship have been fully paid. Pledging or transfer or ownership by way of security shall not be admissible without our consent. Any processing of goods under reservation shall take place on our behalf, free of charge, and without any

obligation to regard us as Manufacturer within the meaning of § 950. The purchaser shall assign to us co-title in the new goods in the proportion of the invoiced value of the goods under reservation to the other goods processed as at the time of processing. All and any new goods resulting from such processing shall be deemed goods under reservation.

If the goods delivered are combined with a movable item of goods in such a way that they become an essential component of another item of goods that is to be regarded as the main item, the purchaser shall hereby assign to us co-title in the new item on a quota basis. In such case he shall hereby assign to us all and any claims for remuneration that may arise against any third party, together with all subsidiary rights, in the amount of the value of the goods under reservation, and he shall authorise us to collect such claims, with the proviso of revocation. We do hereby accept such anticipatory assignment and authorisation.

The purchaser shall be permitted to resell and process such goods as set forth hereinabove only in the ordinary course of business, and only on condition that said claims do in fact devolve upon us. This shall include that the purchaser receives payment from his customer or makes the reservation that ownership shall not go to his customer before the same has fulfilled his obligations in terms of payment. The purchaser shall agree so with his sub-purchaser.

In the event of attachment, seizure, or any other action or intervention by a third party, the purchaser shall have to notify us immediately and completely.

In the event that the purchaser falls behind with payments, we shall be entitled, without fixing another deadline, to terminate the purchaser's right of title by unilateral declaration and claim return of the unprocessed material.

All and any of the purchaser's rights mentioned herein shall lapse in the event of discontinuation of payments and / or institution of insolvency proceedings. This shall not apply to the rights of the trustee in insolvency.

The assertion of the reservation of title through us shall require no cancellation, whereas the purchaser shall be obligated to promptly grant us any access so that we may make appropriate establishments and dispose of the goods under reservation.

If the value of the securities granted exceeds our claims, possibly reduced by down payments or instalments, by more than 20%, we shall be obligated to reassign title or release goods in the same measure, whichever we may choose.

On settlement of all our claims arising from the business relationship, ownership of the goods under reservation and all and any claims assigned to us shall devolve on the purchaser.

8. Conditions of Payment

Our invoices shall be issued under the date of shipment of goods or, in the case of orders for installation, upon completion of the work. Unless otherwise agreed, they shall be due for payment without any deduction within 30 days.

Any claims or performance in part shall be invoiced separately and shall each be payable individually, independently of the total scope of delivery or performance. Payments made on account shall be set against part deliveries according to the order in which such deliveries shall be made.

If any payments are deferred or received after maturity, we shall be entitled to charge interest as from the date of maturity in the amount of loan costs incurred by us. Otherwise the legal provisions pursuant to §§ 286 ff of the German Civil Code [BGB] shall apply in the event of any default in payment. Any further claims shall remain unaffected.

A right to set off shall only exist in the event of undisputed claims or for claims that have been conclusively determined by a court. In cases of justified deficiency claims, retention of payments shall only be admissible to such an extent as shall represent a reasonable relation to the actual defect of quality. Our sales representatives and agents shall not be entitled to collect bills unless they produce our written authorization to collect debts.

9. Data Protection

We shall be entitled, within the limits allowed by the German Data Protection Act, to process any information concerning the contractor with regard to or in connection with the business relationship, no matter whether such data have been received from the contractor himself or from any third party.

10. Place of Performance – Place of Jurisdiction – Applicable Law
D-83071 Stephanskirchen shall be the place of performance and jurisdiction regarding deliveries and payments (including legal action based on dishonoured cheques or bills of exchange) as well as all and any disputes that may arise between the parties hereto, if the contractor is a merchant or a legal entity under public law, or if he represents special funds under public law. We shall, however, also be entitled to sue the purchaser at his registered domicile. The relations between the contracting parties shall be governed only and entirely by the law applicable in the Federal Republic of Germany, exclusive of the UN law on sales.

11. Final Provisions

Should any of the provisions herein be found to violate any statutory prohibition(s) or to be invalid for any other reason(s), this shall not affect the validity of the other provisions.

In lieu of such invalid provisions, if any, it shall be deemed agreed what would have been closest to the economic interest and to the presumed will of the contracting parties in accordance with the other terms and conditions of business. The same shall apply in the event of any gap(s) herein.

The contracting parties shall undertake to make a serious effort to contribute to the completion of substitute provisions to such effect.
